Do not say that you do not like kebabs! So tender, juicy... Yummy! --

At a festival no one wants to think about organizational issues. For example, where to find a chair and whether all fit at the table... We believe that a festival should be a holiday, so we will be happy to deal with these issues, and you will not have to get distracted from the party:)

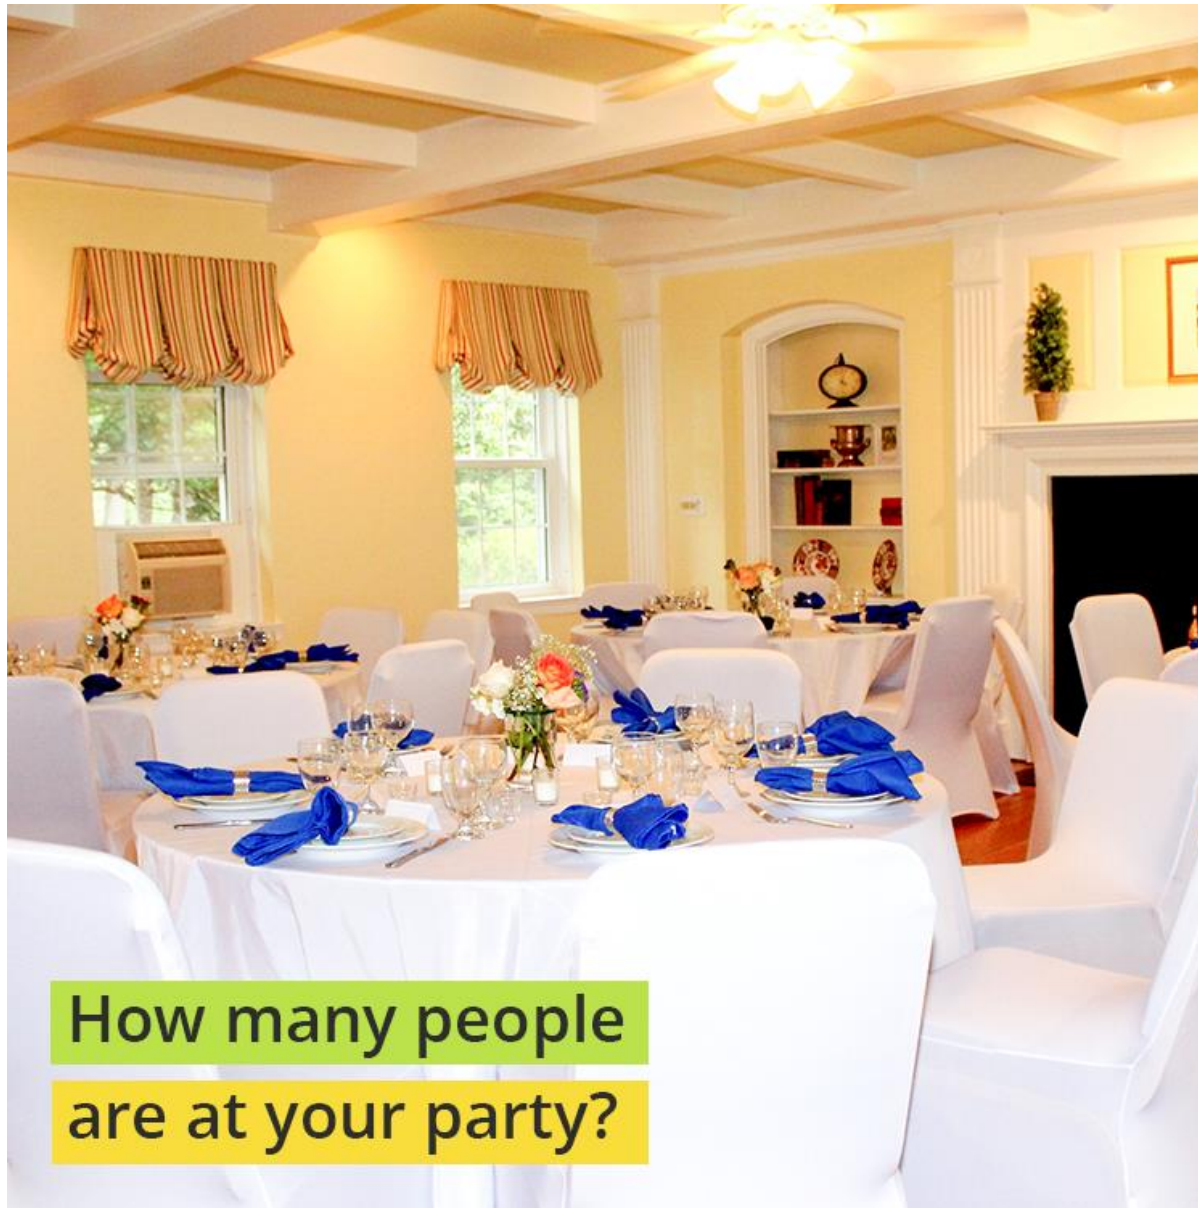

---- If you ask us “ what is the best summer salad?” , we will show you this one!

The refreshing taste of cucumbers and tomatoes will give you vigor and lightness, even if the weather is hot and you want to move to Antarctica for at least a couple of days)

Hello! Misha & Helen is back in touch! We want to tell today about how many people we can serve at your party. Experimentally, we found that we cope perfectly with the range from 20 to 200 people)

How many people
are at your party?

--- Tartlets with fillings - the most popular dish on the holiday table. It is tasty and looks beautiful. The only negative thing of such a snack is that it ends very quickly:) But we are always ready for this.) ---- Hello! Now we will tell you about ourselves) For example, this is Mearuzhan also known as Misha. The one that we have in the title) He knows how to cook everything and even more, which is not surprising, having 12 years of culinary experience. Misha cooks Russian, Armenian, American, European and Caucasian cuisine. No one has left him hungry and dissatisfied. Everyone was fed and happy:)

--- It is a wonderful day to tell about another wonderful day. It was warm. The holiday only added temperature because it was hot! So, watermelons were very helpful. :) Judging by the fact that the guests were satisfied, they also decided so) Want us to serve your event? Write to Direct or call us 4133778959, 5082158046
